

*CAMPINawe*®

## ANY ADVENTURE, ONE CAMPER

Embrace a higher level of camping with  
all the versatility, comfort, and ease of use  
you only dreamed of—until now.

Designed to last a lifetime.  
Your journey starts here.

*Experience the Unexpected*

Every Campinawe comes fully equipped to hit the road. Expect more and focus on your next destination.

*Enjoy the journey, prepare for adventure*

*Built to Go Anywhere*

The exterior panels used in the Campinawe's body are rated to outperform the human body with an effective temperature rating of -40 to 240 degrees.

Black mod steel wheels with AT tires including underframe mounted matching wheel and tire

10ga steel structural fenders

Dual rear corner stabilizer jacks

7ga steel chassis with heavy duty tongue jack

11ga steel floor and bed-surround

3500lb torsion axle with independent suspension and 18 inches of ground clearance

Our proprietary composite body is light-weight enough, that Campinawe is able to be built on top of the heaviest duty welded and powder coated steel chassis available.

*Made for the road less traveled*

## *Camping at its Finest*

Enjoy unsurpassed comfort with a real queen size gel-infused memory foam mattress and space for at least two people to relax. Couple that with Campinawe's more than 58 cubic feet of storage, and you can bring all the comforts of home to the great outdoors.

*No matter how lost you get,  
never compromise on a  
good night's sleep*

*The Outdoors Made Easy*

Every Campinawe is backed by more than a century's worth of innovation, experience and dedication. When deciding on the right equipment for how you want to camp, choose a proven industry leader that will be there for you every step of the way.

Overall dimensions:	14'10" (L) x 7' (W) x 6'11" (H)
Interior dimensions:	11' (L) x 5'1" (W) x 4'7" (H)
Dry weight:	1,910 lbs.
GVWR:	2990 lbs. (expands to 3490 with trailer brakes)
GAWR:	3500 lbs.
Ground Clearance:	18"
Cargo Capacity:	1080 lbs.

To simplify your experience, the Campinawe only requires you charge the battery and routinely check your caulk seams, hubs, and bearings.

Its 1910 lbs dry weight, extendable tongue, and adjustable height hitch means towing is always under your control. With a height that can fit in a standard single car garage we take the hassle out of ownership.

*Don't let your camper own you, own your camping experience*

## *Intuitive Design and Construction*

Every Campinawe is built with state of the art construction, superior materials, and top of the line amenities. The Campinawe is put together like a 3D puzzle where all of the panels are interlocked to provide structural support and stability while dispersing shock throughout.

Our commitment to building safe, reliable and trustworthy products is ensured through the National Association of Trailer Manufacturers' (NATM) compliance verification program (CVP).

Each Campinawe comes with an NATM decal located on the front stating it is certified and in compliance with all federal guidelines and regulations.

For more information on the CVP program, visit [NATM.com](http://NATM.com).

*And...never leave anyone behind*

We are proud to build each Campinawe trailer in the Kansas City metro area. Most everything, from the chassis and paneling all the way to our leatherwork and blackout shades are made and sourced locally in the heartland of the United States of America.

Midwest values, Kansas City Chiefs, KC Royals, The Country Club Plaza, BBQ, the home of jazz, art, The City of Fountains, and Kansas City's Camper...Campinawe! Need we say more?

We source our wood from 100% self-sustaining forests and utilize non-gassing adhesives to reduce our carbon footprint as much as possible. Beyond this, Campinawe is built to last a lifetime while leaving no trace when your journey is over.
